

Description

With capabilities on developing different form-fit optical harness, Browave provide integrated solutions – customized fiber array, lens array, free space isolator, AWG device, filter block, and connection interfaces for Data Center application.

Features

- ▶ Excellent performance saves loss budget for end-customer
- ▶ Flexibility on process development for cost and performance optimization
- ▶ Telcordia General Requirements compliance

Application

- ▶ 100G CWDM4/PSM4/LR4 (SM) & SR4 (MM) transceiver
- ▶ 200G/400G FR4/DR4 (SM) transceiver
- ▶ Fiber optical sensing & coherent LiDAR
